HEALTH SCIENCES

Health science courses are concerned with fundamental issues in human health and disease and are, therefore, interdisciplinary in both scope and content. They have been designed not only for students anticipating careers in medicine, dentistry, nursing, public health, pharmacy, social work, medical technology, physical therapy, cytotechnology, and numerous other health care professions and services, but for all students interested in individual and community health, the clinical and paramedical arts, and the biomedical sciences. Health sciences courses are listed under two designations:

1. Allied Health: Health Sciences;
2. other disciplines.

Health Sciences Courses

Allied Health: Health Sciences

Code	Title	Hours
AHHS 191	Special Topics	1-6
AHHS 291	Special Topics	1-6
AHHS 325	Introduction to Gerontology	3
AHHS 327	MGS Meeting	1
AHHS 389	Recent Advances in Clinical Medicine	1
AHHS 390	Research	1-4
AHHS 391	Special topics	1-12
AHHS 394	Medical Preparation	2
AHHS 395	Geriatric Practicum	1-3
AHHS 420	Geriatric Health Issues	3
AHHS 430	Health Aspects of Aging	3
AHHS 490	Research	1-4
AHHS 491	Special Topics	1-12

Health and Human Performance

Code	Title	Hours
NUTR 221N	Basic Human Nutrition	3

Microbiology

Code	Title	Hours
BIOM 250N	Microbiology for Health Sciences	3
BIOM 251	Microbiology Health Sciences Lab	1

Social Work

Code	Title	Hours
S W 423	Addiction Studies	3
S W 455	Social Gerontology	3

Pharmacy

Code	Title	Hours
PHAR 110N	Use & Abuse of Drugs	3
PHAR 320	American Indian Health Issues	3

Philosophy

Code	Title	Hours
PHL 321E	Philosophy & Biomedical Ethics	3
