RADIOLOGIC TECHNOLOGY
A.A.S.

Anne Delaney, Director

A Radiologic Technologist (Radiographer) uses critical thinking and
independent judgment to obtain diagnostic medical images while
providing quality patient care and minimizing radiation exposure.
Technologists are employed in acute care settings, ambulatory care
settings, physicians’ offices, in education and in management or sales
positions. With additional education and training, radiographers may be
employed in radiation therapy, computed tomography, mammography,
magnetic resonance imaging, diagnostic medical ultrasound, nuclear
medicine, special vascular imaging and cardiac catheterization.

The Radiologic Technology program is approved by the American
Registry of Radiologic Technologists (ARRT) and accredited by the
Northwest Association of Schools and Colleges. When all requirements
for the associate degree are completed, the student will be eligible to
take the national certification examination administered by the American
Registry of Radiologic Technologists. Upon successful completion of this
examination, the student becomes a Registered Radiologic Technologist,
R.T. (R) ARRT.

Program Requirements

The Associate of Applied Science degree in Radiologic Technology
requires students to successfully complete the Pre-Radiology
prerequisite courses prior to applying to the program. Students admitted
to the University of Montana may enroll in the Pre-Radiology prerequisite
courses.

Students must pass BIOH 201N and BIOH 202N with a minimum grade
of 'B' and have a minimum cumulative GPA of 2.75 in all course work,
including prerequisite courses, to apply to the Radiologic Technology
program. A course may be attempted a maximum of two times. As some
courses are offered Autumn or Spring semester only, it is important to
obtain advising with the Program Director or Clinical Coordinator each
semester prior to registration.

Application to the program is required Spring semester in the year prior to
the Autumn semester program start. Students may apply while enrolled in
the Pre-Radiology prerequisite courses with acceptance to the program to
be determined after Spring grades are finalized. Students who apply twice
and have a minimum cumulative GPA of 2.75 in all course work,
including prerequisite courses, to apply to the Radiologic Technology
program. A course may be attempted a maximum of two times. As some
courses are offered Autumn or Spring semester only, it is important to
obtain advising with the Program Director or Clinical Coordinator each
erm prior to registration.

The program classes begin Autumn semester each year with the
majority of classroom courses completed in the first two semesters.
Clinical education will begin at the end of the second semester. A ten-
week summer clinical rotation is required between the first and second
years and consists of 40 hour per week of clinical instruction. The
Autumn semester of the second year will also be dedicated to 40 hours
per week of clinical instruction.

Students entering the program are required to rotate to clinical sites
outside the Missoula area on a periodic basis. These rotations will take
place during any term or session beginning the Summer semester of the
program. These sites may include, but are not limited to, Ronan, Hamilton,
Plains, Ronan, and Polson, Montana. Transportation and housing are the
student’s responsibility.

Associate of Applied Science - Radiologic Technology

Missoula College

Degree Specific Credits: 87

Required Cumulative GPA: 2.0

Catalog Year: 2018-2019

Note: It is preferred that students have the prerequisite core completed
by the end of the semester in which they intend to apply to the program
(i.e. applying to the program in the spring and completing the core by the
end of that spring semester.) Students must also prove competence with
computer technology prior to application to the Radiology Technology
Program in one of the following three ways:

1. Acceptable transfer credit for CAPP 120,
2. Passing challenge exam for CAPP 120, or
3. Take and pass CAPP 120

Minimum Required Grade: C

Radiologic Technology Pre- or Co-requisite Courses

Note: These courses can be taken either before applying or after being
accepted into the program through the application process. Along
Radiologic Technology A.A.S.

with BIOH 211N, students must register for the BIOH 212N lab section. These must be passed with a minimum grade of 'B'.

**Radiologic Technology Courses**

**Note:** These courses cannot be taken unless accepted into the program through the application process.

- AHXR 195 is taken Spring Semester at 2 credits and Summer at 12 credits.
- AHXR 295 is taken Autumn Semester at 12 credits and second year Spring at 8 credits.
- For AHXR courses the minimum grade is a B.
