

SUSTAINABLE AGRICULTURE AND FOOD SYSTEMS CERTIFICATE

The Certificate in Sustainable Agriculture and Food Systems helps prepare students to effectively build a more sustainable agriculture and food system for current and future generations. Students develop their knowledge and skills through upper-division courses that emphasize systems thinking, interdisciplinary study, civic engagement, and experiential, service learning at the campus-community PEAS farm.

General Certificate Requirements

Additional requirements for graduation can be found on the Degree/Certificate Requirements for Graduation page (<https://catalog.umn.edu/academics/graduation-requirements/>).

Unless otherwise noted in individual program requirements, a minimum grade point average of 2.00 in all work attempted at the University of Minnesota-Morris is required for graduation. Please see the Academic Policies and Procedures page (<https://catalog.umn.edu/academics/policies-procedures/>) for information on how your GPA is calculated.

Courses taken to satisfy the requirements of a major, minor, or certificate program must be completed with a grade of C- or better unless a higher grade is noted in the program requirements.

Post-Secondary Certificate - Sustainable Agriculture and Food Systems

- Students must achieve at least an overall grade point average of 3.0 for courses within the certificate program.
- The certificate will only be awarded upon the successful completion of all requirements and the attainment of a baccalaureate degree.
