

COLLEGE OF HEALTH

Reed Humphrey, Dean

The College of Health (<https://www.umt.edu/health/>) houses six schools that provide undergraduate and graduate degrees for professional, clinical, and research careers. Opportunities to receive certificates and dual degrees are available as well as online programs for some degrees. Please see the schools' pages in the catalog for their undergraduate degrees or their websites for detailed information about specific degrees and programs. In addition, the College provides advising for pre-medical sciences and offers courses in the health sciences that are open to students in all majors. The College is a member of the campus-wide UM Health and Medicine (UMHM) program that connects students, degree programs, researchers, and community partners. The College is also associated with the Family Medicine Residency of Western Montana and the Western Montana AHEC.
