## MATHEMATICS B.A.

This degree is the BA in Mathematics without a concentration. Students can add one or more of the concentrations in Applied Mathematics, Combinatorics \& Optimization, Pure Mathematics, or Statistics and Data Science to this degree by fulfilling the respective Concentration Requirements (achieved by taking specific Upper-Division Elective Courses). Typically, students declare one of these four concentrations during their sophomore or junior year. Note that the requirements for the Mathematics Education concentration are extensive and differ substantially from the requirements for the other concentrations. Students interested in Mathematics Education are encouraged to declare this concentration as early as possible, preferably during their first year at UM.

## Bachelor of Arts - Mathematics

## General Education Requirements

Information regarding these requirements can be found in the General Education Section (http://catalog.umt.edu/academics/general-education-requirements/) of the catalog.

## Summary

| Code $\quad$ Title | Hours |
| :--- | ---: |
| Mathematics Core Courses | 23 |
| Mathematics Electives | 23 |
| Science Requirement | 18 |
| Language/Computer Science Requirement | 3 |
| Total Hours | $\mathbf{6 7}$ |

## Degree Specific Credits: 67

## Required Cumulative GPA: 2.0

Note on degree specific credits: The degree specific credits are much lower for double-majors and for students completing an additional minor (in another subject):

- 41 credits for students completing a second major, and
- 46 credits for students completing a minor.

## Notes on the GPA requirement:

1. A cumulative GPA of 2.0 is required for all courses used to fulfill major requirements.
2. In addition, a cumulative GPA of 2.0 is required for all mathematical sciences courses used to fulfill major requirements. (Mathematical sciences courses are those with a prefix of M or STAT.)

Minimum Required Grade: C-

## Mathematics Electives

Rule: Complete 23 credits in this category.
Notes:

1. Students completing a minor (in another subject) need take only 20 credits.
2. Students completing a second major need take only 18 credits.

## Elective Courses

## Notes:

1. Students completing a minor in another subject or a second major need take only 6 courses.
2. Residency Requirement: At least 4 of the courses in this category must be taken at UM-Missoula (only 3 if M 307 is taken at UMMissoula).
3. Note that STAT 451 does not count toward this requirement.
4. In addition to counting towards this requirement, M 429 (History of Mathematics) is also an advanced college writing course. Most Mathematics majors use M 429 to meet the advanced college writing general education requirement.

## Elective Computer Labs and Independent Study Courses

Rule: Computer labs and independent study courses from the following list are optional; if taken ( $0-2$ credits), they count toward the total number of credits required for the Mathematics Elective requirement.

| Code | Title | Hours |
| :--- | :--- | ---: |
| M 275 | Differential Equations Computer Lab | 1 |

## Science Requirement

Notes:

1. Students completing a minor (in another subject) or a second major are exempt from this requirement.
2. Transfer courses listed on the transcript as CSCI TR* may include course work in other areas such as Computer Applications (CAPP) and therefore do not count towards this requirement unless a student successfully petitions the Department of Mathematical Sciences.

| Code $\quad$ Title | Hours |
| :--- | ---: |

## Language/Computer Science Requirement

Rule: Either complete the General Education Requirement Group III: Modern and Classical Language or take one course from the following list.

Note: Students completing a second major are exempt from this requirement.

| Code | Title | Hours |
| :--- | :--- | ---: |
| Complete one of the following courses: | $\mathbf{3}$ |  |
| CSCI 126 | Computation in the Sciences with Calculus |  |
| CSCI 150 | Introduction to Computer Science |  |
| CSCI 151 | Interdisciplinary Computer Science I |  |
