PARKS, TOURISM & RECREATION MANAGEMENT
(PTRM)

PTRM 141Y - National Parks and American Culture. 3 Credits.
Offered autumn. This course introduces undergraduates to contemporary
issues in managing the places and programs that make up the U.S.
national park system. Students will learn about the variety of resources,
values, viewpoints, and ideas that are represented in the more than 400
units of the national park system, which stretches from Guam to Maine
and Alaska to the Virgin Islands. The role of the federal agency in charge
of the parks, the National Park Service (NPS), will be explored, including
its work in community recreation and historic preservation. Particular
attention will be given to the social, cultural and historical context of how
the National Park Service was developed and evolved. There are no pre-
requisites.
Gen Ed Attributes: Democracy and Citizenship

PTRM 150 - First Year Seminar in Parks, Tourism, and Recreation
Management. 1 Credit.
Offered autumn. This course will explore issues related to recreation and
tourism in western Montana. This is a field based course designed to
get students outside the classroom. Students will have a chance to visit
outdoor recreation areas and meet recreation and tourism managers.

PTRM 191 - Special Topics. 1-6 Credits.
(R-6) Offered intermittently. Experimental offerings of visiting professors,
experimental offerings of new courses, or one-time offerings of current
topics.

PTRM 210S - Nature Tourism & Commercial Recreation. 3 Credits.
Offered spring. Introduction to the tourism and commercial recreation
industries. Provides initial link between the natural environment and
business operations. Combination of introductory business philosophies,
economics, and natural resource management into a framework for
future reference and course work.
Gen Ed Attributes: Social Sciences

PTRM 217S - Parks & Outdoor Recreation Management. 3 Credits.
Offered autumn and spring. The management of land as an environment
for outdoor recreation. Understanding the relationship between the
visitor, resource base and management policies. Recreation planning on
multiple use forest lands, parks, wilderness areas and private lands.
Gen Ed Attributes: Social Sciences

PTRM 291 - Special Topics. 1-6 Credits.
(R-6) Offered intermittently. Experimental offerings of visiting professors,
experimental offerings of new courses, or one-time offerings of current
topics.

PTRM 300 - Recreation Behavior. 3 Credits.
Offered spring. Prereq., PTRM 217S. This course provides an
understanding of recreation behavior in wildland and nature-based
tourism oriented settings. Students will learn about theories/conceptual
frameworks from social and environmental psychology and their
application to visitor management issues in the wildland recreation and
nature-base tourism fields.

PTRM 310 - Natural Resource Interpretation and Communication. 3
Credits.
Offered autumn. Prereq., COMX 111A or THTR 120A, junior or senior
standing in PTRM or RECM. Principles, concepts, techniques essential to
providing high quality interpretive programs in natural or cultural history.

PTRM 315 - Natural Resource Interpretation and Communication. 3
Credits.
Offered spring. Prereq., COMX 111A or THTR 120A, junior or senior
standing in PTRM or RECM. Principles, concepts, techniques essential to
providing high quality interpretive programs in natural or cultural history.

PTRM 345X - Sustaining Human Society & Natural Environment. 3-6
Credits.
Offered summer. These field-based, experiential classes focus on the
environmental and conservation concerns, as well as the modern and
traditional cultures, of Australia, New Zealand, or Fiji.
Gen Ed Attributes: Cultural & International Diversity

PTRM 353 - Tourism, Livelihoods and Sustainability in Mountains. 3
Credits.
Offered summer only. Coreq. NRSM 352. In this course we will explore
the opportunities and challenges of development with particular
reference to nature-based tourism and sustainability in an isolated but
rapidly globalizing region of the Himalaya. Students will learn through
extensive readings, class discussions, direct field experience (including
living in a remote mountain village), meetings with development officials,
sustainability activists and stakeholders in the region.

PTRM 355 - Wilderness Medicine And Risk Management. 5 Credits.
This course will train students in injury and illness prevention in a
backcountry setting while emphasizing risk management principles. The
course also trains students in the treatment and long-term management
of medical emergencies in the backcountry, including improvised litters
and splints. Instructors cover decision making involved in dislocation
reduction, medication administration, and evacuation protocols. Risk
management topics include participant screening, emergency response
plans, risk matrices, and incident reporting. Co-requisites include HHP
332, Emergency Medical Technician and Incident Management; and
PTRM 356, Wilderness Rescue and Survival Skills.

PTRM 356 - Wilderness Rescue and Survival. 5 Credits.
This course is ideal for outdoor leaders involved in extended backcountry
trips and those individuals seeking employment with search and rescue
units, ski patrols and wilderness trip leading organizations. Students will
be prepared to handle emergencies in high-elevation, winter conditions
as well as in tropical and swiftwater environments. They will also be
prepared for extended care of patients and rescuers in remote and
challenging environments. Students will study navigation including
landform interpretation of maps and use of map rulers to determine lat/
long and UTM coordinates, as well as practical use of maps, compass
and GPS. The course includes 3 days of Swiftwater Rescue training, as
well as 3 days of Level I Avalanche training. An overnight, winter rescue
scenario typically in conjunction with Missoula County Sheriffs Search
and Rescue team, as well as training in rescue helicopter operations with
St. Patrick Hospitals LifeFlight medics, complete the suite of practical
experiences. Co-Requisites include HHP 332, Emergency Medical
Technician and Incident Management; and PTRM 355, Wilderness
Medicine and Risk Management.

PTRM 380 - Recreation Administration & Leadership. 3 Credits.
Offered spring. The theories, principles and practices that shape the
administration of recreation opportunities offered through public,
nonprofit and private agencies and organizations. Course content
includes leadership roles of recreation managers, organizational
structure, management, legality, risk management, staffing,
communication and public relations.

PTRM 391 - Special Topics. 1-12 Credits.
(R-12) Offered intermittently. Experimental offerings of visiting
professors, new courses, or one-time offerings of current topics.

PTRM 392 - Independent Study. 1-6 Credits.
(R-6) Offered every term. Course material appropriate to the needs and
objectives of the individual student.

PTRM 394 - Seminar. 1-4 Credits.
(R-4) Offered intermittently. Variable topics by visiting scholars.
PTRM 398 - Internship. 1-6 Credits.
Offered every term. Prereq., consent of instr. Extended classroom experience which provides practical application of classroom learning during placements off campus. Prior approval must be obtained from the faculty supervisor and the Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation.

PTRM 401 - Applied Risk Management for Outdoor Programs. 3 Credits.
In this course, students are trained to balance risk with fundamental outdoor program objectives. They learn to craft defensible risk acknowledgments and emergency response plans while practicing how to educate and involve participants in risk management. Students will gain extensive practice in documentation, reporting, and emergency communications through case studies and practical scenarios as well as learn best practices for teaching participants practical skills in wildlife conflict avoidance, maintaining group wellness and avoiding communicable disease, and medical screening for proactive mental health management. Student assessments include planning and executing an outdoor trip for volunteers as well as participating in an incident response drill with Missoula County's SAR team and Aerie Backcountry Medicine. Several day-long field trips and one overnight field experience required. Level: Undergraduate and graduate.

PTRM 407 - Managing Recreation Resources in Wilderness. 3 Credits.
Examination of strategies to management recreation in a wilderness setting. Addresses management of visitor use and experiences, measuring and monitoring biophysical and social impacts, effective education and interpretation, and law enforcement. Level: Undergraduate

PTRM 418 - Winter Wilderness Field Studies. 3 Credits.
Examination of wilderness values, management issues and strategies, winter ecology and snow science, risk management and group leadership, and traditional skills. Winter field course in the Swan Valley and Mission Mountains Wilderness. Level: Undergraduate-Graduate

PTRM 450 - Pre-Practicum Prof Prep. 1 Credit.
Offered spring. A pre-practicum class to provide orientation for the practicum, PTRM 495. Level: Undergraduate

PTRM 451 - Tourism & Sustainability. 3 Credits.
Offered autumn. Prereq., WRIT 101 or equivalent, one intermediate writing course and PTRM 210S, or consent of instructor. Theories and conceptual models are applied to analyzing relationships between the integration of planning theories to sustainability concepts. Level: Undergraduate
Gen Ed Attributes: Advanced Writing

PTRM 482 - Wilderness & Protected Area Management. 3 Credits.
Offered autumn. Prereq., WRIT 101 or equivalent, one intermediate writing course and PTRM 217S, or consent of instructor. Examination of the origin, evolution, and application of the park concept on state, federal, and international levels. Evaluation of legislation, philosophy, and policy leading to consideration of goals, objectives, and strategies for wilderness and protected area management. Level: Undergraduate-Graduate
Gen Ed Attributes: Advanced Writing

PTRM 484 - Capstone in Parks, Tourism, and Recreation Management. 3 Credits.
Offered autumn. Co-req. with either PTRM 485 or PTRM 451. Field measurement and management techniques critical in park, tourism & recreation management. Includes measurement of impacts on biophysical and social attributes of park, tourism & recreation settings. Level: Undergraduate

PTRM 485 - Recreation Planning. 3 Credits.
Offered spring. Prereq., PTRM 217S and PTRM 300. Offered autumn. Needs of recreation opportunities and response to those needs through planning, demand assessment and resource analysis. Level: Undergraduate-Graduate

PTRM 486 - Entrepreneurship in Tourism and Recreation. 3 Credits.
Offered spring. Prereq., PTRM 210S and PTRM 217. Together, commercial recreation and tourism represent a large portion of the economies of many cities, counties, states and countries. As such, the recreation and tourism industry contributes significantly to economies all over the world. In this course, we will examine breadth of commercial recreation and tourism enterprises and their economic impacts at all levels from the local to the global. In addition, we will explore the impacts of commercial recreation and tourism on our society and environment. Taking an entrepreneurial approach, we will explore and develop our understanding of business and marketing concepts as they relate to commercial recreation and tourism through real-world examples and case studies. Level: Undergraduate

PTRM 491 - Special Topics. 1-12 Credits.
(R-12) Offered intermittently. Experimental offerings of visiting professors, new courses or one-time offerings of current topics. Level: Undergraduate-Graduate

PTRM 492 - Independent Study. 1-6 Credits.
(R-6) Offered every term. Prereq., consent of instr. Individual study of research problems. Level: Undergraduate

PTRM 494 - Seminar. 1-4 Credits.
Offered autumn and spring. Prereq., senior standing in wildlife biology or consent of instr. Analysis and discussion led by students of current topics in wildlife biology. Level: Undergraduate

PTRM 495 - Practicum in PTRM. 1-6 Credits.
(R-15) Offered every term. Prereq., PTRM 380, PTRM 450, senior standing, and consent of instr. Supervised pre-professional practice in approved parks, tourism & recreation management agencies. Level: Undergraduate-Graduate

PTRM 498 - Internship. 1-6 Credits.
Offered autumn and spring. Prereq., consent of instr. Extended classroom learning during placements off campus. Prior approval must be obtained from faculty advisor and Internship Services office. A maximum of 6 credits of Internship (198, 298, 398, 498) may count toward graduation. Level: Undergraduate-Graduate

PTRM 499 - Senior Thesis. 1-3 Credits.
(R-6) Offered autumn and spring. Prereq., consent of instr.; senior standing. Preparation of major paper based on study or research of a topic selected with an advisor according to needs and objectives of student. Level: Undergraduate-Graduate

PTRM 500 - Conservation and Social Science Methods. 3 Credits.
Offered autumn. Prereq., a course in statistics or consent of instr. The nature of scientific research, planning research projects, organization and presentation of research results. Level: Graduate
Evolving over time. This concept of nature protection has grown to be a global phenomenon and how the idea of protection or preservation has evolved over time.

This course is about why the concept of nature protection has grown to be a global phenomenon and how the idea of protection or preservation has evolved over time. Level: Graduate
**PTRM 562 - Managing Recreation Resources Wilderness. 3 Credits.**
Same as FORS 562. Current research, theory, and management approaches to recreation management in wilderness, including monitoring and management of visitor impacts and experiences. Level: Graduate

**PTRM 574 - Perspectives in Human Dimensions. 3 Credits.**
Consent of instructor. This course will provide graduate students with an understanding of multiple perspectives in human dimensions of natural resources. The course is intended to be broad in nature in order to provide students with a comprehensive understanding of the topics. Students will read and discuss foundational pieces by Orr and Leopold (among others) and explore newer readings on current research. The course will cover social psychological and sociological perspectives and discuss key issues such as scale, multidisciplinary research, sustainability and social diversity in natural resources. Students will be challenged to approach natural resources issues from multiple perspectives, not just the perspective they are most familiar with. Students will be able to communicate effectively among social scientists and be able to integrate diverse perspectives. Level: Graduate

**PTRM 582 - Concept of Wilderness & PA. 3 Credits.**
(R-3) Offered autumn. Theoretical and philosophical imperatives for the establishment of different forms of parks, wilderness and protected areas. In-depth discussion of the objectives and purposes for management of these areas, and of the current criticisms and attacks on their intellectual foundation. Level: Graduate

**PTRM 583 - Research & Development Tourism & Recreation. 3 Credits.**
This course will use Montana as a case study to understand tourism and recreation research and the tourism and recreation industry. From an applied research prospective, students will learn the intricacies of how to design a research program to support a tourism and recreation industry where the data and decision making tools for marketing professionals, land managers, planners, and political entities are generated. How do you build your relationships, work with advisory councils, pick your issues to study, design your methodologies, collect and analyze data, and tell the story so it is applicable to the industry yet objective and science driven? Level: Graduate

**PTRM 584 - Sustainable Protected Area Management and Tourism. 3 Credits.**
This course will explore the intersection of social, cultural, environmental, and economic aspects of protected area management in relation to sustainability of resources, tourism, visitor management, conservation, and community development. Case study examples from diverse contexts, settings, and types of terrestrial and aquatic protected areas within the U.S. and around the world will illustrate the complexity of protected area management in a time of rapid change.

**PTRM 597 - Research. 1-12 Credits.**
(R-12) Offered every term. Prereq., graduate standing. Independent graduate research in parks, tourism, and recreation management. Level: Graduate

**PTRM 598 - Internship. 1-12 Credits.**
(R-12) Offered every term. Prereq., consent of instr. Extended classroom experience that provides practical application of classroom learning during placements off campus. Prior approval must be obtained from faculty advisor and Internship Services office. Level: Graduate

**PTRM 599 - Professional Paper. 1-15 Credits.**
(R-15) Offered every term. Preparation of professional paper. Level: Graduate

**PTRM 695 - Special Topics. 1-6 Credits.**
(R-6) Experimental offerings of visiting professors, experimental offerings of new courses, or one-time offerings of current topics. Level: Graduate

**PTRM 697 - Research. 1-15 Credits.**
(R-15) Offered every term. Directed individual research and study appropriate to the back ground and objectives of the student. Level: Graduate

**PTRM 699 - Thesis. 1-15 Credits.**
(R-15) Offered every term. Prereq., graduate standing. Preparation of thesis/dissertation. Level: Graduate
