Degree Specific Credits: 64

Required Cumulative GPA: 3.0

Notes

• The PhD in Teaching and Learning at UM (Curriculum and Instruction) is new, and is in development. These courses are not offered every semester. The interested student should contact Teaching & Learning faculty members in their focus area for program inquiries.

• The Ph.D. in Teaching & Learning is composed of three common curricular areas or cores: the Research Core, the Social Change and Technology Core, and Professional Seminars. These common elements are required for all PhD students. The Research Core reflects the program philosophy that the PhD degree should prepare the students to participate in the national discourse on education through contributions to the research literature. The Social Change and Technology Core is directly tied to the theme and although aspects of the theme will be integrated across course work, focused work in classes directly ties to the programs theme allows for deep learning in these areas. The Professional Seminars are developed to prepare the students to enter and be successful in the professorate. Thus, these courses provide students with opportunities to learn the skills necessary for that profession.

• In addition to the common program features, the proposed program has 5 different focus areas. These focus areas are: 1) Early Childhood Inclusion; 2) Foundations, 3) Literacy, 4) STEM; and, 5) Special Education. These focus areas represent areas of national need and faculty expertise. Students select one focus area. These seminars will allow for advanced study in the student’s area of interest.

• All students are required to complete a dissertation. The student, with input from the advisor, will form a Dissertation Committee. The Committee must have at least four members from the Teaching and Learning faculty, but depending on the topic, may include more members either from Teaching and Learning or from across the University. The Dissertation Committee will be responsible for approving both the Dissertation Proposal and the Dissertation. Dissertation can be completed as as one 18 credit course or two 9 credit courses.
