

REHABILITATION ADMINISTRATION GRADUATE CERTIFICATE

Graduate Certificate - Rehabilitation Administration

Degree Specific Credits: 13

Required Cumulative GPA: 3.0

Notes:

- The program is delivered in a distance-education format except for the two-day Professionalism seminar.
- The program is a 13-credit, three semester program that can be taken as a standalone certificate or taken in conjunction with the tDPT program. If taken in conjunction with the tDPT program, the RAC adds only three additional credits (two courses) to the tDPT curriculum; making the tDPT + RAC a viable goal any managerial physical therapist.
