

HISTORY M.A.

MASTER OF ARTS - HISTORY

Degree Specific Credits: 30-36

Required Cumulative GPA: 3.0

Thesis and Non-Thesis Options

Master's Thesis Option

Students may elect to earn their degree by writing a master's thesis. Students choosing this option will:

- Complete thirty-six (30) hours of coursework. A maximum of six (6) thesis credits may be counted toward the total of thirty (30) credits required for the M.A. These credits may be taken in any semester or semesters during which the student is working on the thesis.
- The thesis must be a monographic study, make an original contribution to scholarship, and be presented in acceptable literary form.

Thesis Proposal and Thesis Committee

Students are required to submit a proposal for a thesis project, which must be approved by the student's thesis committee. In consultation with their advisor, students choose members of their thesis committee and gain the consent of each faculty member concerned. Normally, committees are composed of three faculty members: the student's advisor, who serves as the chair of the committee; one other member of the History Department; and one outside faculty member to be selected by the student and advisor. Students should consult with all members of their thesis committee while constructing the thesis proposal.

The student and thesis committee will convene a Thesis Proposal Hearing where faculty members assess the strength of the thesis proposal. Thesis proposals will be assessed on a pass or fail basis. All members of the committee must agree that the student has passed. Students are informed orally, at the end of the proposal hearing, of the committee's evaluation of their thesis proposal.

Students are required to hold their Thesis Proposal Hearing no later than 3 months prior to the intended date of the oral defense of the thesis. To schedule the Thesis Proposal Hearing, students fill out the MA Thesis Proposal Hearing Scheduling Form (<https://www.umt.edu/history/graduate/requirements/proposal-form.php>) and submit a copy to the History Department Office and to the Director of Graduate Studies.

Thesis Defense

The final stage will be an oral defense of the thesis. The student must provide the members of his or her thesis committee with completed copies of the thesis at least two weeks before the defense. Oral examinations are open to the public and guests may ask questions on recognition by the chair. The thesis will be assessed on a pass or fail basis. All members of the committee must agree that the student has passed. Students are informed orally, at the end of the defense, of the committee's evaluation of their thesis.

M.A. candidates must adhere to the schedule determined by the Graduate School, which stipulates that the approved committee draft of the Master's thesis must be submitted to the Graduate Dean at least twenty days before the end of the semester in which all degree requirements will be completed. The draft must be approved by the Graduate Dean before the final oral examination. The University must be in session and students must be enrolled at the time of the defense. No thesis may go

to committee nor may any examination thereon take place until all other requirements for the degree have been fulfilled.

To schedule the thesis defense, students fill out the MA Thesis Defense Scheduling Form (<https://www.umt.edu/history/graduate/requirements/defense-scheduling-form.php>) and submit a copy to the History Department office and the Director of Graduate Studies.

Non-thesis/Professional Paper Option

Alternatively, students may elect to earn their degree without writing a master's thesis. Students choosing this option will:

- Complete thirty-six (36) hours of coursework. A maximum of three (3) professional paper credits (HSTA 599 or HSTR 599) may count toward the 36 credits.
- Prepare one professional paper of publishable quality. A professional paper is an article-length historical study of approximately 30-35 double-spaced pages based substantially on primary sources that makes an original scholarly contribution.
- The student, in consultation with their advisor, will put together a three-member professional paper committee comprised of the student's advisor, one other History Department faculty member, and one faculty member from outside the department.
- In the student's final semester, with approval of their advisor, they will schedule an oral defense and will provide all committee members a copy of the professional paper a minimum of two weeks prior.
- After the oral defense, the advisor will inform the student of the outcome, which may be (a) full pass, acceptance of the paper as is with only minor recommended changes, (b) conditional pass, recommended changes that must be completed within 30 days and approved by the advisor, or (c) not passed.

Non-Thesis/Professional Paper & Public History Portfolio Option

As a third option, students who complete the Graduate Certificate in Public History may elect to earn their degree without completing a thesis by preparing both a professional paper and a public history portfolio. Students choosing this option will:

- Complete thirty (30) hours of coursework. A maximum of three (3) professional paper credits (HSTA 599 or HSTR 599) may count toward the 30 credits.
- Complete a professional paper of publishable quality conforming to the existing expectations for that paper as described in the professional paper option.
- Submit a portfolio of public history projects. The public history portfolio operates in lieu of the additional six credits required of the existing non-thesis/professional paper.
 - The public history portfolio must include a minimum of three projects completed by or with substantive input from the student during their time in the program.
 - The portfolio should be submitted to the student's advisor in electronic form as a single PDF file and should include a description of each project, identification of its intended audience, images of the projects, a 3-5 page reflection per project on what was learned from completing the public history project, and a list of collaborators.
 - The student's portfolio will be reviewed by the student's advisor and a representative of the department's Public History

Committee before final acceptance and approval of degree completion.

- In addition, the student must earn the department's Graduate Certificate in Public History before completing or concurrent with the completion of their M.A. degree.

Required Coursework

- With approval from the student's Graduate Committee, students may apply up to six (6) credits in cognate fields towards the M.A in History.
- Graduate school rules require that a minimum of one-half of all coursework be done at the 500-level.
- Language Requirement - MA students, especially those working on topics outside of U.S. or British history, may need to work with sources in languages other than English. In such cases, the advisor, with approval of the Graduate Program Committee, may require the student to demonstrate suitable reading proficiency in any research language(s) necessary for the completion of the degree.
